USE CHAMPIONS for Dependability

Choose the spark plugs you use with utmost care.

For the driver, car service has no useful purpose unless it keeps running.

Champion—the better spark plug, is noted the world over for its remarkable dependability—in stamina and long life.

Champion plugs will not only assure you of better engine performance but will also quickly save their cost in less gas and oil used.

Put Champions in your car, for the same reason that two out of three motorists would ever buy Champions regularly—i.e. the better spark plug.

Our monthly sales amounted to tens of thousands of these standard maintenance changing spark plugs rated 15,000 miles in their lives and yet new recommended life operation. This is our proof of Champions in use of these world-wide reputations for their steady long life.

The Story of the Microscope—Part II

THE first that I think of when I see a microscope is that it is a very old thing. It is not only the oldest of instruments, but it is also the most important. It is the only instrument that has been used for so long, and it is the only one that has been used for so many purposes. It is the only instrument that has been used for so many years, and it is the only one that has been used for so many purposes. It is the only instrument that has been used for so many years, and it is the only one that has been used for so many purposes.

The
Smoothness
of Coasting

In outselling any other "Six" at or near the price, almost two to one, the signal thing is not merely the overwhelming preference for the Essex Super-Six, but the source from which it comes.

A great proportion of buyers are owners, former and present, of big and costly cars. They turn to Essex because they find:

The smoothness and performance of their costlier cars.

Comfort and riding ease not exceeded in any car.

The roominess and relaxation of their larger cars.

Traffic nimbleness and handling ease unmatched in larger cars.

Economy of operation and maintenance exclusive to Essex.

"Designed for Canadian Reception"

MARCONI NEW ONE DIAL RADIO gives vividly real reproduction

LISTEN now once in this New One Dial Marconi Receiver and you will know it is the best you have ever heard.

Does it tell you the things we make for it? Just a few minutes' study of the features for economy and for operation simplicity. We know that the receiver itself will convince you. We have also printed descriptive pamphlets.

And remember, as you know to and over all the wonderful elements of this New One Dial Receiver, that such radios could only be achieved by the engineering art of Marconi Radio engineers. They alone, with their record of achievement in the Radio and Wireless world, could have created this new standard of Radio Performance.

Two Battery Operated Models and a Batteryless Receiver

You can have this wonderful New Radio set in any of three ways: as a two battery operated model — Table Model or Console Model — the best with a specially designed, full size or smaller, fixed or portable, Console Receiver made to operate from

your light socket without the use of any battery whatever. This set, being model in Marconi's signature Radio scheme, the preferred "light socket" receiver, providing the very latest in easy operation and readily used reproduction.

Why Does a Child Squint?

Special Official Specialist Derives Cause and Cure of Hypermetropia.

FIRBY BURNS, B.S.O.

IF THERE is any one whose child squinted, you are desirous to ascertain the cause of it, the reason why the child squinted, the cause of the squint. The answer is, the child squinted because of a refractive defect of the eye, a defect which is known as hypermetropia. This is a defect of the eye which is known as hypermetropia. This is a defect of the eye which is known as hypermetropia.

When a child squints, it is because the eye is not able to focus the light rays which enter it. The light rays enter the eye and are focused in front of the retina, instead of on the retina. This is because the eye is too short, or the lens is too strong, or the cornea is too curved. This is a defect of the eye which is known as hypermetropia.

THE 2011-12 season opening in Canada for another Women's Winter Olympics is one that is so distinctly Canadian as to be a national treasure. It will be a marriage of body, mind and all-around spirit, a melding and mixture of all ages and all parts of the country. It will be a world beyond teams and beyond fans, a place where the world's best athletes from 20 nations will come to play, where the world's best athletes will come to play, where the world's best athletes will come to play.

Articles will be published about Caribbean women who have not participated in foreign trade or in exporting, such as tourism, law, medicine, public relations, domestic science, teaching, reproductive medicine, and so on.

Fiction

Best for Women

Just as *The Nation's Magazine* has won for itself unparalleled leadership in the last general magazine published anywhere (in every number) in every Canadian family or office, so our former Gleaner has become the most widely read publication in its class among the magazines published anywhere for the girls and women of Canada.

In spite of the overflow into Canada of such magazines as *Nation Beautiful* and *Woman and Gender*, there has proven to be a definite place here for *Canadian Women and Gender*. In the same way, in spite of the new flow of *Sweet Homekeeping* and *Ladies' World Journal*, there is a constant demand for a magazine that is at once for the young Canadian and distinguished Canadian.

JERRY!—there seems to be just NOTHING
I want this year except some more
Community Plate!"

"Don't apologize, angel! I'll dash 'round and
buy out the store before you change to di-
mond earrings or a swanky roadster!"

THE kind-of-girl who'd like a swanky roadster . . .
or a diamond necklace . . . or a bit of the moon!
is the kind-of-girl who most-in-the-world appreciates
the loveliness—the 'chic'—and the permanence—of a
gift of Community Plate . . .

And who isn't that kind of a girl?
